

**STUDENT  
PRIVACY  
COMPASS**

**Student Privacy 101:**

**Why Protect Student Data?**

# Activity: Identifying Risks

Risk	Is this risk implicated?
The permanent record	
Commercialization	
Age-inappropriate content	
Safety	
Social harm	
Over-surveillance	
Equity concerns	
Loss of opportunity	

Mr. Richards takes his science class on a field trip to a local museum. The students are really excited, and Mr. Richards starts taking pictures of the students by exhibits for the school website. Mr. Richards also posts one of the photos to his Facebook account.

**What risks are raised by Mr. Richards posting pictures on his social media account? What risks are raised by posting them on the school website?**

# Reflection

1. Write a few sentences about why student data privacy is important to you.
  - a. Share your thoughts with a colleague.
2. Which of the risks discussed are you most worried about for your students? For your child, if you are a parent?
